BARENTZ

RAW MATERIALS

The sourcing organization of Barentz in China has been established in 2004. The focus of our sourcing activities is to initiate long cooperation with reliable producers of raw materials for the food, animal nutrition, pharmaceutical and chemical industries.

Our dedicated procurement team in Changzhou City, Jiangsu Province, is taking the complete responsibility for the selection and auditing of our suppliers, the day-to-day contacts about shipments and inquiries as well as managing quality according to internationally reknown standards.

The customer base of Barentz, with high demands on quality and well managed business, has proven that the concept of Barentz China Sourcing is unique and focused on reliability, sustainability and competitive procurement.
