

VICTORINOX

Knives and sharpeners

Victorinox professional knives

Victorinox professional knives cut productively and effectively. We supply professional knives for processing meat, fish and vegetables for industrial, food service kitchens, restaurants, and other applications where efficiency and the quality of the finished product is important.

Swiss **Victorinox** and **Swibo** knives have been available on the Finnish market for decades and have a significant market share.

We stock and directly supply the most popular knife models, and all Victorinox products are available for delivery.
