

Packaging materials

Foodstuffs must be packed in the correct materials to guarantee the product's hygiene and product safety. Barentz Finland Oy's range of packaging materials contains protection and cover for food and for processing equipment like bins, trolleys, and smoking racks. Our Vantaa warehouse has a wide range of products available for immediate delivery for your packaging needs. Contact us and we'll find suitable packaging for your product.

PP trays

We offer a comprehensive range of food service trays made from polypropylene in various sizes. Our basic stock contains the following range of sizes and colors:

- Tray MC1000 M6, black, 1.0 liter
- Tray MC1100 M6, clear, 1.1 liters
- Tray MC1100 M6, black, 1.1 liters
- Tray MC1200 M4, black, 1.2 liters
- Tray MC1200 M4, white, 1.2 liters
- Tray MC1300 M6, clear, 1.3 liters
- Tray MC1300 M6, black, 1.3 liters
- Tray MC1300 M6, black, 1.3 liters, slanted corners
- Tray MC1300 M6, white, 1.3 liters
- Tray MC2200 M4, black, 2.2 liters
- Tray MC2200 M4, clear, 2.2 liters
- Tray MC2501, black, 2.5 liters (traditional "dyno" size)
- Tray MC5001, black, 5.0 liters (traditional "dyno" size)

LID films for PP trays

We also provide lid films for PP trays. The stock widths are: 265 mm, 325 mm, 400 mm, and 420 mm.

Shrink bags

Shrink bags give the product an attractive appearance while improving its shelf-life. Our high-quality shrink bags are suitable for packing fresh meat, meat products, fish,

and cheese. We have an extensive size range (135 x 350 mm – 400 x 750 mm). The material thickness is primarily 40 µm, but we can also provide thicker 68 µm bags for products which require better puncture resistance.

Vacuum bags

Vacuum bags are used to pack meat, cold cuts, sausages, smoked meats, fish products, etc. Our vacuum bags come in a thickness of 80 µm. Our sizes range from 135 x 350 mm – 400 x 750 mm. If you need more puncture resistance, we also provide thicker 100 – 150 µm bags to order. Our warehouse also stocks a few sizes of cooking bags suitable for sous vide manufacturing.
