Diverse Product Applications for Oil Powders

MCT Oil, a healthy fat commonly used with nutritional applications, can provide high levels of energy as well as enhance cognitive functions. Common applications for these powders include:

- Beverage Mixes
- Nutritional Supplements
- Baked Goods
- Energy Bars
- Dessert Blends
- Dry Soups/Broths
- Dressings and Seasonings
- Coffee Creamers
- K-Cup® Pods*

Oil Powders Meet Your Label Demands

AmTech's expertise in spray drying oils and use of different carriers and emulsifiers allows us to create oil powders with specific ingredient, functionality and oil ratio needs to meet your label demands. Oils include High Oleic Sunflower, Coconut, Olive and MCT. AmTech's proprietary line of MCT Oil Powders are available in a variety of classifications:

- Identity Preserved
- Non-GMO Project Verified
- Organic
- Keto Compliant
- Kosher Parve
- Non-Dairy/Allergen-Free

Advantages of AmTech Oil Powders

- Powdered applications (drink, baking, savory)
- Functionality: creaminess, mouthfeel, adhesion
- Improved fat distribution
- Better Handling/Ease of Measuring
- Convenience
